

ARJUN SHARMA

AI / ML ENGINEER

Phone: +1 555-014-7283 | Email: arjun.sharma@example.com

Location: Hoshiarpur, Punjab, India

PROFESSIONAL SUMMARY

Motivated AI and Machine Learning enthusiast with a strong interest in machine learning, deep learning, computer vision, generative AI, and MLOps. Passionate about building practical AI systems and learning modern tools for reliable document intelligence and intelligent automation.

EDUCATION

Bachelor of Technology (Artificial Intelligence & Machine Learning)

Rayat Bahra Professional University, Punjab | 2025 - 2029

TECHNICAL SKILLS

- Programming: Python, C++, SQL
- Machine Learning: Scikit-learn, Pandas, NumPy, Matplotlib
- Deep Learning: TensorFlow, PyTorch
- Computer Vision: OpenCV
- Generative AI: LLMs, Prompt Engineering, RAG
- MLOps: Git, GitHub, Docker, MLflow

PROJECTS

Multimodal Document Intelligence System

Built a document processing pipeline supporting PDF, image, and text inputs. Implemented OCR using PaddleOCR, image preprocessing, text extraction, document routing, and standardized document models.

MLOps Vehicle Insurance Prediction

Developed a machine learning pipeline with data ingestion, validation, transformation, model training, experiment tracking, and containerization.

CERTIFICATIONS & INTERESTS

- Interested in Large Language Models and Generative AI
- Learning Retrieval-Augmented Generation and AI Agents
- Interested in production-ready ML systems and MLOps
